The following modifications have been clinically recommended for the DVA client's continued safety and independence.

These modifications will be undertaken by qualified tradespeople on behalf of, and at the cost of DVA, provided DVA approves the modification.

The specifications listed are not to be changed without prior consultation with the certified driving Occupational Therapist and DVA. Unauthorised changes may result in the negation of DVA's responsibility for payment.

Once the vehicle modification/s have been installed, DVA will maintain, repair or replace modification/s if required. DVA will not approve replacement or repairs to any other car parts as this is the client's responsibility.

DVA does not restore the vehicle to its former state or fund ongoing insurance and maintenance costs such as annual inspections/registration.

When the vehicle is no longer required, these modifications will remain as fixtures to the vehicle unless required to be transferred to a new car. Another assessment will need to be conducted in this instance.

Clients are required to advise their insurance company of the vehicle modification.

DVA is not liable for any accidents in which the vehicle may be involved.
