### ABOUT VAP

You may claim a supplementary VAP for services you provide to eligible veteran card holders. VAP is payable based on your Modified Monash Model (MMM) classification.

VAP incentive items are equivalent to the Medicare Bulk Billing Incentive and can be co-claimed with certain DVA general practice items.

Higher VAP payments apply to level B, C, D and E attendances, level B telehealth attendances, and longer telehealth items for those registered at the practice through MyMedicare. Standard VAP incentives apply to other services.
