

[REDACTED]

---

To whom it may concern

I'm Michelle [REDACTED] a Veteran. I served in the Army Reserve from [REDACTED] at rank of SGT. I was Medically Discharged in [REDACTED]. I receive Compensation Payment and on White Card. I have 16 Accepted Conditions and I'm under DRCA. I've looked at this reform to change to 1 ACT and Grandparent DRCA and VEA.

Looking at what's coming in the change I don't see any benefit for us on DRCA White Card.

I'm guessing that us veterans on DRCA White Card nothing will change for us???

1: It says that DRCA veteran's may be eligible for Special Rate Disability Pension.

Q: Is this only for members that claim after the commencement date??? Or only full time members of ADF???

2: How is it fair that those on TPI with NO Active Service, Peacekeeping or Hazardous Duty keep their payments for life and us on Compensation Payment either a full time veteran or reservist member at pension age lose our payments and have to go to Centrelink for Age pension.

3: There's nothing for us currently on DRCA.

Q: Is most of this reform more beneficial for Full Time members and not Reservist???

4: Rental Assistance and Income Support Supplement, currently this is only available to Gold Card Veterans not white card.

Q: Why isn't any of these payment available for DRCA White Card Veterans???

Again we are discriminated against and miss out on everything.

5: It's mentions Travel Allowance to change to unlimited klms, currently DRCA White Card have to be 50 klms plus.

Q: With the reform do us current DRCA Veteran's change to any amount of klms or will we still be as we are now???

6: What I've read this isn't going to do anything for me.

Q: What exactly does Grandparenting DRCA mean to us currently under DRCA White Card???

Thanks  
Michelle [REDACTED]
