---

Regarding the new veterans legislation, I've read about presumptive liability in new legislation.

Currently, the streamlining procedure for MRCA, VEA etc (CLIK 3.4.5 Applying streamlining procedures) provide many more conditions for MRCA than VEA.

Under the new combined act, is are the streamlining procedures part of presumptive liability, and will all the items for presumptive liability be equally applied to all vets regardless of when they served or are treated under existing acts?

It's not clear in the summary docs about this for new scheme and to be honest I'm not sure where to look. Can you please either advise or tell me where to look.

Thanks for any assistance.

Regards

Peter [REDACTED]
